Dear Mr. Gachago,

Following our meeting today 13/11/2020 on the below email, attached please find the integration materials that we will use during the integration process.

Form the attached documents, please substitute the sample data provided with the following test data:

1. integ_app_code=AFRIDOCTORFA55454 (By default)
2. member_number=MEM019420-1 (Unique for every member/Patient under Smart)
3. global_id= KE000000000000000000000000000000665366 (This should be retrieved in the response of getting member profile)
4. comment=CONSULTATION (Encounter type or service/item category e.g CONSULTATION,LABORATORY,MEDICATION/PHARMACY/RADIOLOGY)
5. prov_code=SKO_20 (By default)
6. line_user=AFRIDOKTAAPP (By default)
7. claim_type=1 (Claim type. Use 1 for claim, 2 for reversal)
8. claim_type2=19 (FOR CLAIMS 9 = cash, copay refund = 10, 19 = invoice outside smart, 20 other FOR REVERSALS 7=Claim reversal, 8=Credit note, 27=Top-up (wont affect fund balance), 21=Other)
9. is_override_date=FALSE (By default)
10. user_id=55454 (By default)

Example of API calls

- **Member profile** - https://data.smartapplicationsgroup.com/api/sandbox/telemedicine/getmember?member_number=MEM019420-1&integ_app_code=AFRIDOCTORFA55454&country_code=KE
- **Balances** - https://data.smartapplicationsgroup.com/api/sandbox/telemedicine/getbenefits?integ_app_code=AFRIDOCTORFA55454&global_id=KE00000000000000000000000000665366&countrycode=KE
- **Sending Claim** - https://data.smartapplicationsgroup.com/api/sandbox/telemedicine/docclaim?prov_code=SKO_20&pool_number=1&amount=1000&date=2020-10-13&invoice_nr=TEST0528&comment=CONSULTATION&claim_type=1&claim_type2=19&line_user=AFRIDOKTAAPP&member_number=MEM019420-1&integ_app_code=AFRIDOCTORFA55454&is_override_date=FALSE&user_id=55454&country_code=KE

Please use the below link to download the SSL certificate that will be installed in the application server.

Subject: [External Email] Fwd: Progress ?

Austin/Kennedy

This is the error message my development team just got based on the documentation recently provided. Please advise on the fix. I'm starting to think this is going to be a integration long process.

Kind regards

John Gachago

The screenshot shows the Talend API Tester interface. On the left, the 'REPOSITORY' pane shows a project named 'AFRIDOKTA' with a sub-project 'API' containing 'Request 1'. The main area displays 'Request 1' details:

- METHOD:** GET
- URL:** `https://data.smartapplicationsgroup.com/api/sandbox/telemedicine/getmember?integ_app_code=AFRIDOKTA` (length: 147 byte(s))
- QUERY PARAMETERS:** [3]
- HEADERS:** Form view, with options to 'Add header' or 'Add authorization'.
- BODY:** XHR does not allow payloads for GET request.

The 'Response' section shows a '500 Internal Server Error' (Cache Detected - Elapsed Time: 2.74s):

- HEADERS:** pretty view, showing:
 - Server: nginx/1.13.3
 - Date: Wed, 11 Nov 2020 12:31:41 GMT -6s
 - Content-Type: application/json
 - Content-Length: 78 bytes
 - Connection: keep-alive
 - X-Smart-Transac... 566e1035-798d-457d-ae10-35798d857d59
- BODY:** pretty view, showing a JSON error message:

```
{  "message": "Text must not be null or empty",  "http_status_code": 500}
```

 (length: 78 bytes)

At the bottom, the Windows taskbar shows the time as 6:05 PM on 11/11/2020.

This is the error message we are receiving. Please check with SMART team.

This is an email from outside Smart Applications!! Stop and Think before you click to avoid being scammed or phished. If the email has a URL in it, do not click it!!
